

Contribution to Climate Protection

08.05.2023

ALUNIR GMBH

**Calculated quantity of 14.0 t CO₂
with a value of CHF 400.00**

This contribution to climate protection is having a real impact!

Based on the calculated emissions, myclimate climate protection projects in developing and emerging countries are supported. The projects meet the highest standards Gold Standard, Plan Vivo and VCS (incl. CBB and/or SD-VISta)) and contribute to the UN's SDGs. myclimate projects not only reduce greenhouse gas emissions but also contribute to the social, ecological and economic development in the region.
